

Function

A clear stream jet that falls gracefully into pools. Used for wall mounted applications either flush or surface mounted. Integral swivel permits directional adjustments to the stream. For use primarily in small architectural pool.

Not water level dependent.

Specification

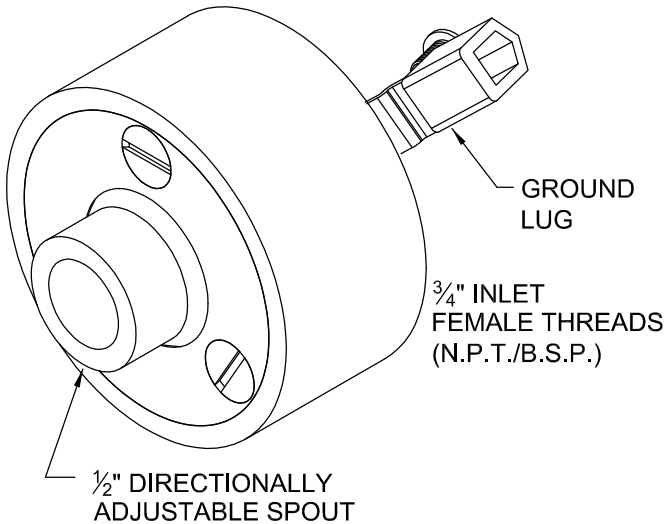

Construction shall be from extruded brass with stainless steel fasteners.

Options

- NMS050-K - Comes with surface flange
- NMS050-L - Comes with membrane clamp

Notes

- 1. Requires fine screening at pump for optimum effect (suction strainer openings 0.250")
- 2. For interactive play do not exceed 20 feet per second = 12.2 US gpm

Surface Mounted Application

Flush Mounted Application

Performance

distance / throw	6"	12"	20"
US gpm	3	4	5
head	2'	2'	2'
